EDUCATION

Dhole Patil College of Engineering

Bachelor of Engineering in Information Technology

Pune, India

Aug 2022 – May 2026

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript, Java, PHP

Data Analysis & Visualization: Microsoft Excel, Power BI, Tableau, Pandas, NumPy

Web Development Frameworks: Django, Laravel, Spring Boot

Cloud & Database Technologies: AWS, MySQL, PostgreSQL

Tools & Methodologies: Git, Agile, Business Analysis, Statistical Analysis

Languages: English (Professional), Hindi (Native), Marathi (Native), Japanese (Elementary)

PROFESSIONAL EXPERIENCE

Data Analyst and Software Developer Intern

Oct 2025 – Present

Ventar (IT Startup)

Pune, India

- Engineered interactive dashboards and data visualizations using Power BI and Tableau, enabling stakeholders to make data-driven decisions and improving reporting efficiency by 40%
- Conducted comprehensive data analysis using Excel, SQL, and Python (Pandas, NumPy) to extract actionable insights from complex datasets, supporting strategic business initiatives
- Developed scalable web applications using Django, Laravel, and Spring Boot frameworks, delivering end-to-end solutions that enhanced client operational efficiency
- Collaborated with cross-functional teams in an Agile environment to gather requirements, perform business analysis, and translate client needs into technical specifications
- Optimized database queries and data pipelines, reducing processing time by 30% and improving system performance for data-intensive applications
- Implemented AWS cloud services for application deployment and data storage, ensuring scalability and reliability of business-critical systems

PROJECTS

Customer Analytics Dashboard | Power BI, SQL, Python

2025

- Built an end-to-end analytics solution analyzing customer behavior patterns across 50,000+ records
- Designed ETL pipelines to integrate data from multiple sources, performing data cleaning and transformation
- Created dynamic visualizations revealing key trends, resulting in 25% improvement in customer retention strategies

E-Commerce Platform | Django, PostgreSQL, AWS

2024

- Developed a full-stack e-commerce application with user authentication, product catalog, and payment integration
- Implemented RESTful APIs and optimized database queries for handling concurrent user requests efficiently
- Deployed on AWS EC2 with automated CI/CD pipeline, ensuring 99.9% uptime and seamless scalability

Sales Forecasting Model | Python, Scikit-learn, Tableau

2025

- Developed machine learning models using time series analysis to predict quarterly sales with 85% accuracy
- Performed feature engineering and statistical analysis on historical sales data spanning 3 years
- Visualized predictions and trends in Tableau, enabling executives to optimize inventory management
